# Long Covid -Post Vax Syndrom

Reprogramming and reset through a time-correlated correction via access to the patient's quantum information field before a Covid vaccination or Covid infection

# Description of a quantum-based reset

- Every materially existing object or subject has a quantum-correlated, i.e. non-material description of its existence in quantum space (proof of quantum entanglement: mathematical, Bell, 1964; experimental, Aspect, Clauser, Zeilinger, Nobel Prize 2022)
- Electrons move synchronously and simultaneously in the past and future, which enables time entanglement in data exchange (Wheeler-Feynman-Absorber Theory 1941; Aspect, non-locality experiment, see above)
- It is technically-instrumentally as well as biologically-mentally possible to access this space in a targeted manner and to access information there (Zolk, Experimental Proof, 2022)
- Both possibilities of access are used here in combination in order to adjust and correct a previously existing description of a state of being with the current state
- This means: a new reality is created with modulated information, since information as a non-material substrate is able to produce a material effect (thought, immaterial=verbal command go to the right becomes a movement (physical movement=material effect) to the right realized
- Simply put, sickness is overwritten with health and your body then does the recovery itself

The RESET during a 3-day therapy stay with us is an individual programming

The preparatory treatments of stimulation to provide energy and drainage (detox) for cleansing are standardized procedures that optimally support the RESET. Every recovery takes place better, faster and longer on clean terrain and with good energy

# Conditions for performing a customized reset

- Personal data of the patient: full name, date of birth, if known time, place of birth, place of residence, country. Email address, telephone number if applicable. height, weight.
- 1 chest photo and 1 picture of the whole body before Covid / Vax, if possible from a "healthy" phase of life and the same up-to-date. Only the person with as little background as possible with no other people or animals in the picture. Date of recordings.
- The data will be treated confidentially and only passed on for internal, medically necessary purposes. No transmission to third parties.

Of course, we also know that for many of those affected, this treatment is not feasible due to cost or time reasons

However, we would like to give everyone our preventive, curative and re-programming quantum technology so that they can improve their situation and have a good life again.
